Vorapong Suppakitpaisarn

2026

CONFERENCE Q. Hillebrand, P. Manurangsi, V. Suppakitpaisarn, and P. Vajanopath, “Improved differentially private algorithms for rank aggregation,” in *AAAI Conference on Artificial Intelligence (AAAI)*, vol. 40, 2026, pp. 17 032–17 039.

CONFERENCE Q. Hillebrand, V. Suppakitpaisarn, and T. Shibuya, “Communication-efficient publication of sparse vectors under differential privacy via poisson private representation,” in *ACM ASIA Conference on Computer and Communications Security (AsiaCCS)*, 2026, pp. 1786–1798.

JOURNAL K. Kittikamron, N. Manop, V. Suppakitpaisarn, and K. Rojviboonchai, “Mobility-aware multi-model fully decentralized federated learning framework for vehicular edge computing,” *IEEE Access*, 2026, accepted.

CONFERENCE K. Kugimiya, P. Inkeaw, and V. Suppakitpaisarn, “Private synthetic data generation for continuous data via adaptive binning and k-means,” in *Pacific Rim International Conference on Artificial Intelligence (PRICAI)*, accepted, 2026.

JOURNAL B. Manna, L. Nguyen, B. Roy, and V. Suppakitpaisarn, “Minimum target coverage for air quality monitoring using bus routes,” *IEICE Transactions on Information & Systems*, vol. 109-D, no. 3, pp. 381–390, 2026.

CONFERENCE J. Nanta, V. Suppakitpaisarn, and P. Sripratak, “Approximation algorithms for the b -matching and list-restricted variants of MaxQAP,” in *International Symposium on Combinatorial Optimization (ISCO)*, accepted, 2026.

CONFERENCE K. Pfisterer, Q. Hillebrand, and V. Suppakitpaisarn, “Publishing below-threshold triangle counts under local weight differential privacy,” in *Annual Conference on Neural Information Processing Systems (NeurIPS)*, accepted, 2026.

2025

OTHER A. Auzel and V. Suppakitpaisarn, “Bridging algorithmic foundations with information security and privacy: Set- k -multicover problem and homomorphic secret sharing,” in *Algorithmic Foundations for Social Advancement: Recent Progress on Theory and Practice*, S. Minato, T. Uno, N. Yasuda, T. Horiyama, K. Kawarabayashi, S. Yamashita, and H. Ono, Eds., 2025, pp. 223–241.

JOURNAL S. Buahong, V. Suppakitpaisarn, and P. Sripratak, “Finding a b -matching that embeds the maximum number of edge pairs in a given set,” *Journal of Combinatorial Optimization (JOCO)*, vol. 49, 2025, Article No. 91.

CONFERENCE Devraj, S. Chakraborty, K. Sadakane, and V. Suppakitpaisarn, “Optimizing qubit mapping via spectral ordering of input graphs for QAOA max-cut circuit,” in *Workshop on Quantum Computing for Search and Optimization Problems (QCSOP)*, ser. CDMTCS Research Report Series, vol. 586, 2025, pp. 4–18.

JOURNAL Q. Hillebrand, V. Suppakitpaisarn, and T. Shibuya, “Communication cost reduction for subgraph counting under local differential privacy via hash functions,” *Transactions on Machine Learning Research (TMLR)*, 2025.

CONFERENCE Q. Hillebrand, V. Suppakitpaisarn, and T. Shibuya, “Cycle counting under local differential privacy for degeneracy-bounded graphs,” in *International Symposium on Theoretical Aspects of Computer Science (STACS)*, ser. Leibniz International Proceedings in Informatics (LIPIcs), 2025, 49:1–49:22.

JOURNAL S. Mukherjee and V. Suppakitpaisarn, “Local differential privacy-preserving spectral clustering for general graphs,” *Transactions on Machine Learning Research (TMLR)*, 2025.

CONFERENCE K. Pfisterer, Q. Hillebrand, and V. Suppakitpaisarn, “Facility location problem under local differential privacy without super-set assumption,” in *IFIP WG 11.3 Conference on Data and Applications Security and Privacy (DBSec)*, ser. Lecture Notes in Computer Science (LNCS), vol. 15722, 2025, pp. 293–310.

CONFERENCE V. Suppakitpaisarn, D. Ponnoprat, N. Hirankarn, and Q. Hillebrand, “Counting graphlets of size k under local differential privacy,” in *International Conference on Artificial Intelligence and Statistics (AISTATS)*, ser. Proceedings of Machine Learning Research (PMLR), vol. 258, 2025, pp. 5005–5013.

2024

OTHER A. G. Aguaza, J. Baffier, and V. Suppakitpaisarn, “An analysis of ‘skull & roses’ cards game,” in *Encyclopedia of Computer Graphics and Games (ECGG)*, N. Lee et al., Eds., 2024, pp. 1672–1675.

CONFERENCE L. Betzer, V. Suppakitpaisarn, and Q. Hillebrand, “Publishing number of walks and Katz centrality under local differential privacy,” in *Conference on Uncertainty in Artificial Intelligence (UAI)*, ser. Proceedings of Machine Learning Research (PMLR), vol. 244, 2024, pp. 377–393.

CONFERENCE B. Manna, B. Roy, and V. Suppakitpaisarn, “Minsum problem for discrete and weighted set flow on dynamic path network,” in *International Conference on Algorithmic Aspects in Information and Management (AAIM)*, ser. Lecture Notes in Computer Science (LNCS), vol. 15179, 2024, pp. 35–47.

JOURNAL T. Mitsunobu, R. Suda, and V. Suppakitpaisarn, “Worst-case analysis of LPT scheduling on small number of non-identical processors,” *Information Processing Letters*, vol. 183, 2024, Article 106424.

CONFERENCE V. Suppakitpaisarn and J.-K. Hao, “Utilizing graph sparsification for pre-processing in max cut QUBO solver,” in *Metaheuristics International Conference*, ser. Lecture Notes in Computer Science (LNCS), vol. 14753, 2024, pp. 219–233.

JOURNAL P. Vinayavekhin, B. Khomkham, V. Suppakitpaisarn, P. Codognet, T. Terada, and A. Miura, “Identifying relationships and classifying Western-style paintings: Machine learning approaches for artworks by Western artists and Meiji-era Japanese artists,” *ACM Journal on Computing and Cultural Heritage*, vol. 17, no. 1, pp. 1–18, 2024, Article 6.

JOURNAL Z. Xu and V. Suppakitpaisarn, “On the size of minimal separators for treedepth decomposition,” *Discrete Applied Mathematics*, vol. 354, pp. 262–270, 2024.

2023

CONFERENCE Q. Hillebrand, V. Suppakitpaisarn, and T. Shibuya, “Unbiased locally private estimator for polynomials of Laplacian variables,” in *ACM SIGKDD Conference on Knowledge Discovery and Data Mining (KDD)*, ACM, 2023, pp. 741–751.

JOURNAL K. Phalakarn, V. Suppakitpaisarn, F. Rodríguez-Henríquez, and M. A. Hasan, “Vectorized and parallel computation of large smooth-degree isogenies using precedence-constrained scheduling,” *IACR Transactions on Cryptographic Hardware and Embedded Systems (TCHES)*, vol. 2023, no. 3, pp. 246–269, 2023.

CONFERENCE P. Ren, R. Suda, and V. Suppakitpaisarn, “Efficient additions and Montgomery reductions of large integers for SIMD,” in *IEEE International Symposium on Computer Arithmetic (ARITH)*, IEEE, 2023, pp. 48–59.

CONFERENCE B. Roy, V. Suppakitpaisarn, B. Manna, and L. Nguyen, “Minimum target coverage for air quality monitoring using bus routes,” in *IEEE 96th Vehicular Technology Conference (VTC-Fall)*, Preliminary Version of journal [1], IEEE, 2023, pp. 1–7.

CONFERENCE P. Suriya, V. Suppakitpaisarn, S. Chaidee, and P. Sukkasem, “Submodularity property for facility locations of dynamic flow networks,” in *Symposium on Algorithmic Approaches for Transportation Modelling, Optimization, and Systems (ATMOS)*, ser. Open Access Series in Informatics (OASIs), vol. 115, 2023, 10:1–10:13.

CONFERENCE P. Vinayavekhin, V. Suppakitpaisarn, P. Codognet, T. Terada, and A. Miura, “Learning similarity for discovering inspirations of Western arts in Japanese culture,” in *International Workshop on Pattern Recognition for Cultural Heritage (PatReCH)*, ser. Lecture Notes in Computer Science (LNCS), Best Paper Award; Preliminary Version of journal [5], vol. 13645-III, 2023, pp. 78–92.

2022

CONFERENCE J. Bi and V. Suppakitpaisarn, “Performances of symmetric loss for private data from exponential mechanism,” in *International Workshop on Parallel and Distributed Algorithms and Applications (PDAA)*, IEEE, 2022, pp. 154–160.

CONFERENCE K. Phalakarn, V. Suppakitpaisarn, and A. Hasan, “Speeding-up parallel computation of large-degree isogeny using precedence-constrained scheduling,” in *Australasian Conference on Information Security and Privacy (ACISP)*, ser. Lecture Notes in Computer Science (LNCS), vol. 13494, 2022, pp. 309–331.

CONFERENCE P. Ren, R. Suda, and V. Suppakitpaisarn, “Throughput-optimized implementation of isogeny-based cryptography on vectorized ARM SVE processor,” in *International Symposium on Computing and Networking (CANDAR)*, IEEE, 2022, pp. 165–171.

JOURNAL V. Suppakitpaisarn, “Tight lower bound for average number of terms in optimal double-base number system using information-theoretic tools,” *Information Processing Letters*, vol. 175, no. 106226, 2022.

2021

JOURNAL L. Nguyen, V. Suppakitpaisarn, A. Surarerks, and P. Vajanopath, “On the maximum edge-pair embedding bipartite matching,” *Theoretical Computer Science*, vol. 882, pp. 109–124, 2021.

CONFERENCE K. Phalakarn, V. Suppakitpaisarn, N. Attrapadung, and K. Matsuura, “Evolving homomorphic secret sharing for hierarchical access structures,” in *International Workshop on Security (IWSEC)*, ser. Lecture Notes in Computer Science (LNCS), Best Student Paper Award, vol. 12835, 2021, pp. 77–96.

CONFERENCE K. Phalakarn, V. Suppakitpaisarn, and A. Hasan, “Non-interactive lattice-based multisignatures,” in *International Workshop on Information and Communication Security (WICS)*, IEEE, 2021, pp. 365–371.

JOURNAL V. Suppakitpaisarn, A. Ariyarat, and S. Chaidee, “A Voronoi-based method for land-use optimization using semidefinite programming and gradient descent algorithm,” *International Journal of Geographical Information Science (IJGIS)*, vol. 35, no. 5, pp. 999–1031, 2021.

2020

CONFERENCE M. Adhikari, V. Suppakitpaisarn, A. Paul, and C. P. Rangan, “Two-stage framework for accurate and differentially private network information publication,” in *International Conference on Computational Social Networks (CSoNet)*, ser. Lecture Notes in Computer Science (LNCS), vol. 12575, 2020, pp. 267–279.

JOURNAL D. Krenn, V. Suppakitpaisarn, and S. Wagner, “On the minimal hamming weight of a multi-base representation,” *Journal of Number Theory*, vol. 208, pp. 168–179, 2020.

CONFERENCE L. Nguyen, V. Suppakitpaisarn, A. Surarerk, and P. Vajanopah, “On the maximum edge-pair embedding bipartite matching,” in *International Conference on Algorithms and Computation (WALCOM)*, ser. Lecture Notes in Computer Science (LNCS), Preliminary version of journal [10], vol. 12049, Springer, 2020, pp. 236–248.

CONFERENCE A. Paul, V. Suppakitpaisarn, M. Bafna, and C. P. Rangan, “Improving accuracy of differentially private Kronecker social networks via graph clustering,” in *IEEE International Symposium on Networks, Computers and Communications (ISNCC)*, IEEE, 2020, pp. 1–6.

CONFERENCE A. Paul, V. Suppakitpaisarn, and C. P. Rangan, “Smart contract-driven mechanism design to mitigate information diffusion in social networks,” in *International Conference on Mathematical Research for Blockchain Economy (MARBLE)*, ser. Springer Proceedings in Business and Economics, 2020, pp. 201–216.

CONFERENCE K. Phalakarn, V. Suppakitpaisarn, N. Attrapadung, and K. Matsuura, “Constructive t-secure homomorphic secret sharing for low degree polynomials,” in *International Conference on Cryptology in India (INDOCRYPT)*, ser. Lecture Notes in Computer Science (LNCS), vol. 12578, 2020, pp. 763–785.

CONFERENCE Z. Xu, D. Mao, and V. Suppakitpaisarn, “PACE solver description: Computing exact treedepth via minimal separators,” in *International Symposium on Parameterized and Exact Computation (IPEC)*, ser. Leibniz International Proceedings in Informatics (LIPIcs), 2020, 31:1–31:4.

2019

JOURNAL T. Settawatcharawanit, V. Suppakitpaisarn, S. Yamada, and Y. Ji, “A computation-efficient approach for segment routing traffic engineering,” *IEEE Access*, vol. 7, no. 1, pp. 160 408–160 417, 2019.

JOURNAL S. Tarnoi, W. Kumwilaisak, V. Suppakitpaisarn, Y. Ji, and K. Fukuda, “Adaptive probabilistic caching technique for caching networks with dynamic content popularity,” *Computer Communications*, vol. 139, pp. 1–15, 2019.

2018

JOURNAL J. Baffier, P. Poirion, and V. Suppakitpaisarn, “Bilevel model for adaptive network flow problem,” *Electronic Notes in Discrete Mathematics (ENDM)*, vol. 64, pp. 105–114, 2018.

JOURNAL N. Fu, N. Kakimura, K. Kimura, and V. Suppakitpaisarn, “Maximum lifetime coverage problem with the battery recovery effect,” *Sustainable Computing: Informatics and Systems (SUSCOM)*, vol. 18, pp. 1–13, 2018.

JOURNAL A. Gragera and V. Suppakitpaisarn, “Relaxed triangle inequality ratio of the Sørensen–Dice and Tversky indexes,” *Theoretical Computer Science (TCS)*, vol. 718, pp. 37–45, 2018.

CONFERENCE C. L. Nguyen, O. Georgiou, and V. Suppakitpaisarn, “Improved localization accuracy using machine learning: Predicting and refining RSS measurements,” in *IEEE GLOBECOM Workshops: Machine Learning for Communications (MLComm)*, IEEE, 2018, pp. 1506–1512.

JOURNAL K. Phalakarn, K. Phalakarn, and V. Suppakitpaisarn, “Optimal representation for right-to-left parallel scalar and multi-scalar point multiplication,” *International Journal of Networking and Computing (IJNC)*, vol. 8, no. 2, pp. 166–185, 2018.

CONFERENCE T. Settawatcharawanit, V. Suppakitpaisarn, S. Yamada, and Y. Ji, “Segment routed traffic engineering with bounded stretch in software-defined networks,” in *Annual IEEE Conference on Local Computer Networks (LCN)*, Preliminary version of journal [12], IEEE, 2018, pp. 477–480.

CONFERENCE X. Zhang and V. Suppakitpaisarn, “An approximation algorithm for incrementally deploying SDN forwarding devices,” in *ACM International Conference on Ubiquitous Information Management and Communication (IMCOM-ICUIMC)*, ACM, 2018, 38:1–38:8.

2017

CONFERENCE S. Chaidee, P. Pakawanwong, V. Suppakitpaisarn, and P. Teerasawat, “Interactive land-use optimization using Laguerre Voronoi diagram with dynamic generating point allocation,” in *International Conference on Spatial Data Mining and Geographical Knowledge Services (ICS DM)*, ser. ISPRS Archives, Preliminary version of journal [12], 2017, pp. 1091–1098.

JOURNAL A. Osothongs, V. Suppakitpaisarn, and N. Sonehara, “Privacy disclosure adaptation for trading between personal attributes and incentives,” *Journal of Information Processing (JIP)*, vol. 25, no. 1, pp. 2–11, 2017.

CONFERENCE P. Pakawanwong, V. Suppakitpaisarn, L. Xu, and N. Kakimura, “Reducing recovery error in compressive sensing with limited number of base stations,” in *IEEE Global Communications Conference (GLOBECOM) – Ad Hoc and Sensor Networking Symposium*, IEEE, 2017, pp. 1–7.

CONFERENCE K. Phalakarn, K. Phalakarn, and V. Suppakitpaisarn, “Optimal representation for right-to-left parallel scalar point multiplication,” in *International Workshop on Information and Communication Security (WICS)*, IEEE, 2017, pp. 482–488.

2016

JOURNAL J. Baffier, V. Suppakitpaisarn, H. Hiraishi, and H. Imai, “Parametric multiroute flow and its application to multilink-attack network,” *Discrete Optimization*, vol. 22, no. 1, pp. 20–36, 2016.

JOURNAL N. Fu and V. Suppakitpaisarn, “Clustering 1-dimensional periodic network using betweenness centrality,” *Computational Social Networks (CSON)*, vol. 3, no. 6, pp. 1–20, 2016.

CONFERENCE A. Gragera and V. Suppakitpaisarn, “A mapping heuristic for minimizing message latency in massively distributed MCTS,” in *International Workshop on Parallel and Distributed Algorithms and Applications (PDAA)*, IEEE, 2016, pp. 547–553.

CONFERENCE A. Gragera and V. Suppakitpaisarn, “Semimetric properties of Sørensen-Dice and Tversky indices,” in *International Workshop on Algorithms and Computation (WALCOM)*, ser. Lecture Notes in Computer Science (LNCS), Preliminary version of journal [18], vol. 9627, Springer, 2016, pp. 339–350.

CONFERENCE K. Phalakarn, K. Phalakarn, and V. Suppakitpaisarn, “Parallelized side-channel attack resisted scalar multiplication using q-based addition-subtraction k-chains,” in *International Symposium on Computing and Networking (CANDAR)*, IEEE, 2016, pp. 140–146.

CONFERENCE R. K. Singh, V. Suppakitpaisarn, and A. Osothongs, “Improving motivation in survey participation by question reordering,” in *Pacific Rim Knowledge Acquisition Workshop (PKAW)*, ser. Lecture Notes in Artificial Intelligence (LNAI), vol. 9806, Springer, 2016, pp. 231–240.

JOURNAL V. Suppakitpaisarn, “An approximation algorithm for multiroute flow decomposition,” *Electronic Notes in Discrete Mathematics (ENDM)*, vol. 52, pp. 367–374, 2016.

2015

CONFERENCE J. Baffier and V. Suppakitpaisarn, “Algorithms for finding robust and sustainable network flows against multilink-attack,” in *International Workshop on Understanding the Inter-Play between Sustainability, Resilience, and Robustness in Networks (USRR)*, IEEE, 2015, pp. 251–258.

JOURNAL P. Chalermsook, H. Imai, and V. Suppakitpaisarn, “Two lower bounds for shortest double-base number system,” *IEICE Transactions on Fundamentals of Electronics, Communications and Computer Sciences*, vol. E98-A, no. 6, pp. 1310–1312, 2015.

CONFERENCE N. Fu and V. Suppakitpaisarn, “Clustering 1-dimensional periodic network using betweenness centrality,” in *International Conference on Computational Social Networks (CSoNet)*, ser. Lecture Notes in Computer Science (LNCS), Preliminary version of journal [19], vol. 9197, Springer, 2015, pp. 128–139.

JOURNAL H. Imai and V. Suppakitpaisarn, “Improving width-3 joint sparse form to attain asymptotically optimal complexity on average case,” *IEICE Transactions on Fundamentals of Electronics, Communications and Computer Sciences*, vol. E98-A, no. 6, pp. 1216–1222, 2015.

CONFERENCE A. Osothongs, V. Suppakitpaisarn, and N. Sonehara, “A proposed method for personal attributes disclosure valuation: A study on personal attributes disclosure in Thailand,” in *International Conference on Information Technology and Electrical Engineering (ICITEE)*, IEEE, 2015, pp. 408–413.

CONFERENCE A. Osothongs, V. Suppakitpaisarn, and N. Sonehara, “A prototype decision support system for privacy-service trading,” in *IEEE International Conference on Multimedia Big Data (BigMM)*, Demonstration Paper, IEEE, 2015, pp. 282–283.

CONFERENCE A. Osothongs, V. Suppakitpaisarn, and N. Sonehara, “Evaluating the importance of personal information attributes using graph mining technique,” in *ACM International Conference on Ubiquitous Information Management and Communication (IMCOM-ICUIMC)*, Article No. 104, ACM, 2015.

JOURNAL V. Suppakitpaisarn and J. Baffier, “Speeding up algorithm for maximizing barrier coverage using parametric multiroute flow,” *IEICE Communications Express*, vol. 4, no. 4, pp. 111–116, 2015.

CONFERENCE V. Suppakitpaisarn, W. Dai, and J. Baffier, “Robust network flow against attackers with knowledge of routing method,” in *International Conference on High Performance Switching and Routing (HPSR)*, IEEE, 2015, pp. 40–47.

CONFERENCE S. Tarnoi, V. Suppakitpaisarn, W. Kumwilaisak, and Y. Ji, “Performance analysis of probabilistic caching scheme using Markov chains,” in *Annual IEEE Conference on Local Computer Networks (LCN)*, IEEE, 2015, pp. 46–54.

2014

CONFERENCE J. Baffier and V. Suppakitpaisarn, “A $(k+1)$ -approximation robust network flow algorithm and a tighter heuristic method using iterative multiroute flow,” in *International Workshop on Algorithms and Computation (WALCOM)*, ser. Lecture Notes in Computer Science (LNCS), Preliminary version of journal [21], vol. 8344, Springer, 2014, pp. 68–79.

CONFERENCE J. Baffier, V. Suppakitpaisarn, H. Hiraishi, and H. Imai, “Parametric multiroute flow and its application to robust network with k edge failures,” in *International Symposium on Combinatorial Optimization (ISCO)*, ser. Lecture Notes in Computer Science (LNCS), Preliminary version of journal [21], vol. 8596, Springer, 2014, pp. 26–37.

CONFERENCE N. Fu, V. Suppakitpaisarn, K. Kimura, and N. Kakimura, “Maximum lifetime coverage problems with battery recovery effects,” in *IEEE Global Communications Conference (GLOBECOM) – Ad Hoc and Sensor Networking Symposium*, Preliminary version of journal [17], IEEE, 2014, pp. 118–124.

CONFERENCE V. Suppakitpaisarn and H. Imai, “Worst case computation time for minimal joint hamming weight numeral system,” in *International Symposium on Information Theory and Its Applications (ISITA)*, IEEE IT Society Japan Chapter – Young Researcher Best Paper Award, IEEE, 2014, pp. 138–142.

2012

CONFERENCE V. Suppakitpaisarn, M. Edahiro, and H. Imai, “Calculating average joint hamming weight for minimal weight conversion of d integers,” in *International Workshop on Algorithms and Computation (WALCOM)*, ser. Lecture Notes in Computer Science (LNCS), vol. 7157, Springer, 2012, pp. 229–240.

CONFERENCE V. Suppakitpaisarn, M. Edahiro, and H. Imai, “Fast elliptic curve cryptography using minimal weight conversion of d integers,” in *Australasian Information Security Conference (AISC)*, ser. Conferences in Research and Practice in Information Technology (CRPIT), vol. 125, ACS, 2012, pp. 15–26.

CONFERENCE V. Suppakitpaisarn, M. Edahiro, and H. Imai, “Fastest multi-scalar multiplication based on double-base chain,” in *World Congress on Internet Security (WorldCIS)*, IEEE, 2012, pp. 93–98.

2011

OTHER V. Suppakitpaisarn, “Optimal average joint hamming weight and digit set expansion of integer pairs,” *Information Processing*, vol. 52, no. 2, p. 202, 2011, Recommended Senior Thesis and Master Thesis by IPSJ (In Japanese).

2007

CONFERENCE T. Praneenararat, V. Suppakitpaisarn, S. Pitakchonlasap, and J. Chongstitvatana, “Striped grid files: An alternative for high-dimensional indexing,” in *Joint Conference on Computer Science and Software Engineering (JCSSE)*, 2007, pp. 248–253.
